Abbiamo una missione: garantire una drinking experience a ridotto impatto ambientale. Siamo già in grado di produrre strumenti per l'erogazione di bevande gassate che limitano fortemente le emissioni di CO2, ma la nostra ricerca non si ferma qui. Attraverso il nuovo sistema di isolamento termico della vasca riciclabile al 100%, ISOTECH PLUS, in combinazione con i nuovi componenti ad alta efficienza, abbiamo creato una linea di refrigeratori che garantiscono una resa superiore del 30% rispetto ai sistemi tradizionali, contribuendo così ad abbassare anche i consumi energetici dei locali.

We have a mission: to guarantee a drinking experience with a reduced environmental impact. We are already able to produce tools for the dispensing of carbonated drinks that strongly limit CO2 emissions, but our research does not stop there.
Through the new thermal insulation system of the 100% recyclable tank, ISOTECH PLUS, in combination with the new high efficiency components, we have created a line of chillers that guarantee a 30% higher yield compared to traditional systems, thus helping to lower also the energy consumption of the premises.
